My head is full of creatures so I have to make them alive if I don't want to go crazy.

I'm illustrator & character designer. My job is my hobby and makes me happy.

I work for varieties of clients and brands. I like new challenges.

I don't like stuck in one place. I'm happy without getting bored so constantly develop my skills, explore new places, peoples and get new passions.

In many of my papers I have dealt with issues related to the rights of minorities and the protection of our planet.
